RoHS Declaration

USCi is committed to a responsible approach to product development where the environment and the safety of employees and customers are concerned. As a result, all USCI's qualified products comply with relevant regulations such as Restriction of the use of certain Hazardous Substances (RoHS).

USCI certifies that each product platform has been tested to be in compliance with the European Union Directive on the RoHS, 2011/65/EU dated 8 JUNE 2011, according to the below requirements.

Restricted Substance	RoHS Maximum Concentration Value
Lead (Pb) ¹	0.1% (1000ppm)
Mercury (Hg)	0.1% (1000ppm)
Cadmium (Cd)	0.01% (100ppm)
Hexavalent Chromium (Cr+6)	0.1% (1000ppm)
Polybrominated Biphenyls (PBBs)	0.1% (1000ppm)
Polybrominated Diphenyl Ethers (PBDEs)	0.1% (1000ppm)

Note 1: Some products contain Lead (Pb) in high temperature die attach solder which is exempt under the current RoHS directive.

We trust that this declaration satisfied any concerns regarding USCI products compliance to RoHS regulations. If not, please contact us at INFO@UNITEDSIC.COM for any additional information.
